JANESVILLE, MONDAY, APRIL 28.

**STATE OF WISCONSIN.**

**A PROCLAMATION**  
 BY THE GOVERNOR.

In conformity with law, I, William D. Hoard, Governor of the State of Wisconsin, do designate

Wednesday, April 30th Next, as Arbor Day, and recommend that all public schools and colleges of the state observe the same by suitable exercises, "having for their object the imparting of knowledge of horticulture, in the department known as arboriculture, and the adornment of schools and public grounds."

It testimony whereof, I have hereunto set my hand, and caused the great seal of the state of Wisconsin to be affixed. Done at the capital, in the city of Madison, this 15th day of March, A. D. 1890.

WILLIAM D. HOARD.

By the Governor:  
 LESTER G. T. JR., Secretary of State.

**"PLENTRY OF MISINFORMATION"**

If any one wants "misinformation" and plenty of that of the best kind, he must go to the free trade papers, and even to some papers that are not free trade. The Chicago Journal, which is quite conservative, and usually correct in its statements, makes these remarks:

An American newspaper of the current information asked the Tribune (Chicago) a few days ago if there was an export duty on logs in Canada. "No," was the brief and emphatic response. In the light of the tariff and the legislation, the answer before referred to, doubtless read with interest the dispatch in to-day's Tribune which was as follows:

"OTTAWA, Ontario, April 25.—In the house of commons tonight Mr. Chilton took up the lumber trade question. He said the McKinley bill as amended proposed a reduction in lumber duties to \$1.50 per 1,000 feet. He suggested that it would be a practical act for the dominion government to abolish the export duty on logs if congress brought down the figure to \$1. Mr. John Macdonald, in reply, intimated that the government was watching tariff legislation at Washington. The present tariff bill before congress proposes to reduce the lumber duty on cut logs from 10 to 5 percent. The lumber comes in under the tariff on saw logs, but duty shall be added to the import duty on lumber. If the bill is passed it will be an easy matter for this government to reduce or remove the export duty."

Some times the Tribune loses its judgment in discussing the tariff question, while at other times it discloses some features of the subject with great ability and fairness. But it is wrong on the wood question as the Journal has frequently shown. For no one of intelligence can see how a tariff amounting to 5 or 10 cents on a piece, or 25 cents on all the wood in a suit of clothes, would add "from 25 to 30 percent to the cost of the clothes." The Tribune made the remark that two hundred or three hundred million dollars a year was added to the cost of the clothing worn in this country, when the fact is that "that sum being far more than the cost of all the wool, foreign and domestic, used in the manufacture of clothing in the United States."

This is a good deal like the statement Mr. Cleveland made in order to greatly stretch a point, that the tariff on wool was a tax of something like \$37 a year per capita to the people of the United States, when the fact is that the per capita for the people for all the woolen goods worn is less than \$8.00.

Here is another item from the Philadelphia Times, which professes to be one of the fairest papers in the country: It is not so much the fault of our shivering, cowardly congressmen as it is the fault of our shivering, cowardly carpet manufacturers that carpet wool is taxed; but it is none the less an undeniable fact of our congressmen, and was to the Philadelphia congressmen who shall vote to increase this sinistral tax, or even to continue it when there is not even the pretense of protection to any industry by such tax. Why not tell the truth?

There is a good deal of "misinformation" in that brief item, for the tariff on carpet wool is so low that it cannot effect the price of carpets. It might be well enough to remove the duty on carpet wool altogether as it cannot be produced in this country in quantities to supply the demand, but even with the duty still on the wool do the people feel the tax? Not a bit of it. Carpets are as cheap in the United States as in any other country in the world, and if any one doubts this statement let him secure some English paper containing quotations and he can satisfy himself. On some of the highest grades of carpets there may be a few cents difference in favor of the English goods on account of the low wages there, but on good ingrain and body Brussels America leads the world. So that if the carpet wool tariff were removed there would be no decline in the price of carpets, for they are as low now as they can be made. All these facts are worth remembering while the tariff discussion is going on.

**QUAY AND HIS ENEMIES.**

WASHINGTON, April 26.—In the house today, Mr. Allen (Mass.), rising to a questioner of personal privilege, read an extract from a special to a Philadelphia paper, stating that in his speech he had uttered a vulgar tirade against Senator Quay and had characterized him as a "tuffet," and closed his speech with an attack upon the piety of Postmaster-General Wanamaker. He denied that he had ever called Quay a tuffet. He did not know Senator Quay, but understood that he was a man of some good traits and he was no party to any conspiracy to injure or defame him—Washington Dispatch.

It is inspiring to hear from a democrat that Senator Quay has "some good traits." There are not many democrats that like Mr. Quay. He is especially obnoxious to the democratic leaders for the masterly manner in which he managed the campaign in 1888. As a rule the partisan attacks upon any man, whether he is republican or democrat, are not worth answering. They are born of prejudice, jealousy, or hate as a usual thing, and time is wasted in paying any attention to them. But in the case of Mr. Quay a direct charge has been made which effects his honor as a public servant. If the charges are true, he has no business in the senate, but if they are false, somebody else should be in the penitentiary. The charge has been made by the press of Pennsylvania, including some republican papers, that Mr. Quay at one time, abstracted from the treasury \$250,000 and \$400,000 at another. It seems this money was taken, it taken at all, only temporarily. This charge of

## BRIEFLETS.

The N. O. W. Club party Thursday evening, May 1st.

Regular drill night Janesville Light Infantry. Semi-annual meeting to-night at 8:30. Wear fatigue uniform.

Janesville Lodge No. 55, F. and A. M., assemble in regular semi-monthly meeting this evening at Masonic hall.

The Milwaukee papers are publishing some rather rosy sensational stories in which the names of some Janesville people are mentioned.

Washington Camp No. 1, Patriotic Sons of America, assemble in regular weekly meeting this evening—large room in Liberty hall, East Milwaukee street.

Chautauque Circle this evening. Quotations from Shakespeare. Last half of questions in the April Chautauque. Map Quiz, papers and good music.

Rev. J. H. Crocker, of Madison, ex-chaplain with Rev. C. F. Elliott, pastor of All Souls church, yesterday, Rev. Crocker preached an able sermon.

The Evening Star Club gave one of their twenty-nine cent dances at Hibernia Hall Saturday evening. The attendance was good, and all had an enjoyable time.

A number from this city were trout fishing at Crystal Springs yesterday. Mr. Buchholz says that he will not allow any trout to be caught after the first of June. Some of the fish are fourteen inches long.

Mr. Geo. W. Brown, of the Iowa Center, is driving a colt twenty-three months old that weighs 1200 pounds. The colt was sired by a Clyde horse that belongs to a son of Mr. Walter Little. The horse is a fine one.

Old John Robinson's advertising car will be in the city on Wednesday at the yards of the Chicago & Northwestern depot, and a force of men will bill the city and surrounding country for the circus, which will be in Janesville on Thursday, May 22d.

Marshall Hogan caught a West Milwaukee street saloon-keeper violating the Sunday law yesterday. The saloon was not only open for trade, but a number of boys under twenty-one years of age were inside enjoying themselves.

Marshall Hogan will gain additional approbation of all good people by keeping one eye on the Sunday violators and prosecuting them to the full extent of the law. There is not a particle of excuse that can be offered in favor of open saloons in Janesville on Sunday. Let the law be obeyed and all will be well.

Ald. J. E. McLean has added a new novelty to his new stand, it being one of Edison's improved phonographs. The little instrument is one of the great wonders of the age. It will talk and reproduce the human voice as plain and distinct as the telephone, play all kinds of music and imitate the different instruments. The instrument has what are termed "blank" cylinders, and persons can talk to the machine, the cylinder is then reversed, and the machine repeats the words and imitates the voice of the speaker. Crowds flock to see and hear the little wonder, and never tire out listening.

Many people owning light buggies and many others doing heavy teaming, sincerely trust that Street Commissioner Hawthorn will speak right out in his forthcoming report regarding necessary work to be done on the streets this summer, and insist that that portion of East Milwaukee street between the bridge and Main street be paved with blocks. This little "throat to the bridge" has been in wretched condition for years, notwithstanding the large amount of money expended in an endeavor to put it in a possible condition. It is a very narrow street at that point, and even should the city take hold of the matter, and pave it with blocks the tax payer would be ahead in the long run.

The Walden & Palmer Shoe Co., is now partly in operation with a force of about thirty hands, additions being made each day. When their machinery is all put up and in operation they will turn out three hundred pair of shoes a day. The Walden & Palmer shoe meets with a ready sale in all the markets where offered, and the factory has a large number of orders now on hand to fill. The Gazette is pleased to note this fact, and sees no reason why other factories cannot be located here, until Janesville becomes one of the largest shoe manufacturing cities in the west. The expense incurred in moving the plant of Messrs. Walden & Palmer to this city from Milwaukee was about \$150. Ex-Mayor Alex. Richardson has taken it upon himself to raise this sum by subscription among our citizens. The Gazette believes our people will gladly contribute this sum with out unnecessary trouble on the part of Mr. Richardson.

Heimstreet is bound to draw the ladies to his store. He has been looking among the different makes of sewing machines and having selected the Domestic has purchased from the company one of their best sewing machines, the same as picture in next column. The machine is on exhibition in his front window. Commencing on Monday every lady visiting his store (whether purchasing anything or not) is requested to register her name in a book kept for the purpose, and on December 24th, the machine will be given to some one whose name is on the list. The machine is one that is sold by the company at \$65, and is probably the most valuable present ever given away in this manner in Janesville. Mr. Heimstreet wishes to impress the fact that you do not have to buy anything, but he wishes a list of all the ladies in the northwest, and this is the best way to get them. Somebody will get a splendid sewing machine, for a Christmas present. Go in and see the machine.

Leaving Bavaria they go to Frankfurt, Wiesbaden, and take a steamer at Biebrich for a ride on the Rhine (stopping at Coblenz) to Cologne; thence to Brussels, making a visit to the scene of the Battle of Waterloo, thence to Antwerp and London. They will then make a tour of England, Scotland and Ireland visiting the Giant's Causeway in the north of Ireland and the Lakes of Killarney in the south, taking the steamer at Queenstown for New York and home.

Mr. and Mrs. W. G. Wheelock will leave tomorrow for New York, intending to sail on the steamship Britannia for Liverpool, and make a tour of Europe. They take the trip for pleasure and change, and Mr. Wheelock will devote some time to business. From Liverpool they go to London and devote about two weeks to sightseeing; Paris about one week; then to Italy, spending some time in Genoa, Pisa, Rome, Naples and vicinity. Florence, Venice, Milan, Lake Maggiore; thence by way of Champlain Pass into Switzerland, visiting Chamonix, Mont Blanc, Geneva, Bern, Interlaken, Grindelwald glaciers, Giesbach Falls, Lucerne, Zurich, Schaffhausen (Falls of the Rhine); then into Germany, visiting Munich, next Austria, taking a steamer at Luz for a day's ride on the Danube river to Vienna.
